

Please consider **tutorials** for your child this summer to support his/her mastery of the basics and to acquire strengthened skills in preparation for academics of the next school year.

Even an hour per week can make a large difference in your child's academic future. There is help!

Back to the Future

is not just the name of a movie!

When we talk about “back to the basics,” we understand that your child’s *future* is based upon their mastery of basic academic skills.
