

REQUIREMENTS FOR DEVELOPING AN INDIVIDUALIZED HEALTHCARE PLAN FOR STUDENTS WITH DIABETES

Parent/ Guardian will:

- Notify the appropriate school personnel of student diagnosed with diabetes.
- Educate and review diabetes treatment with student.
- Provide school with all completed forms prior to student starting the first day of school:
 1. INDIVIDUALIZED HEALTHCARE PLAN FOR DIABETES
 2. SELF-CARRY AND SELF-ADMINISTER DIABETES MEDICATION AGREEMENT-if authorized by physician in student's Individualized Healthcare Plan
- Provide the school with all prescribed medication with proper pharmacy label prior to starting school. Replace the medication after use or upon expiring.

Student will:

- Need to know his/her diabetes signs, symptoms, care they need, restriction(s), and treatment.
- If ordered by the physician, may carry his/her own diabetes medication/supplies. It must be labeled appropriately, including the expiration date. It must be stated in the *Self-Carry and Self-Administer Diabetes Medication Agreement* where the student will carry the diabetes medication/supplies and the school location for back up.
- If authorized by physician in the student's Individualized Healthcare Plan, the parent and student will sign the ***Self-Carry and Self-Administer Diabetes Medication Agreement***.
- Notify an adult immediately if he/she is having difficulty with his/her diabetes.

School:

- For a student with diabetes, the school will setup a meeting with the parent and appropriate school personnel to review the student's Individualized Healthcare Plan.
- School personnel are notified of the following:
 - Student(s) who have diabetes, any signs and symptoms to, instruction of care, and proper treatment.
 - The location of medication if carried by the student and the school location of the backup medication.
 - School will contact the Catholic Schools Office (CSO) if their school does not have a full-time licensed nurse. CSO will review diabetes documents for unlicensed personnel.

CHECKING BLOOD GLUCOSE

Brand/Model of blood glucose meter: _____

Target range of blood glucose: 70-130 mg/dL 70-180 mg/dL Other: _____

Check blood glucose level:

- Before breakfast After breakfast _____ Hours after breakfast 2 hours after a correction dose
 Before lunch After lunch _____ Hours after lunch Before dismissal
 Mid-morning Before PE After PE Other: _____
 As needed for signs/symptoms of low or high blood glucose As needed for signs/symptoms of illness

Preferred site of testing: Fingertip Forearm Thigh Other: _____

Note: The, fingertip should always be used to check blood glucose level if hypoglycemia is suspected.

Student's self-care blood glucose checking skills:

- Independently checks own blood glucose
 May check blood glucose with supervision
 Requires school nurse or trained diabetes personnel to check blood glucose
 Uses a smartphone or other monitoring technology to track blood glucose values

Continuous Glucose Monitor (CGM): Yes No Brand/Model: _____

Alarms set for: Severe Low: _____ Low: _____ High: _____

Predictive alarm: Low: _____ High: _____ Rate of change: Low: _____ High: _____

Threshold suspend setting: _____

**INDIVIDUALIZED HEALTH CARE PLAN FOR STUDENTS WITH DIABETES
2022-2023 SCHOOL YEAR**

To be completed by the Physician:

Additional information for student with CGM

- Confirm CFG results with a blood glucose meter check before taking action on the sensor blood glucose level. If the student has signs or symptoms of hypoglycemia, check fingertip blood glucose level regardless of the CGM.
- Insulin injections should be given at least three inches away from the CGM insertion site.
- Do not disconnect from the CGM for sports activities.
- If the adhesive is peeling, reinforce it with approved medical tape.
- If the CGM becomes dislodged, return everything to the parents/guardians. Do not throw any part away.
- Refer to the manufacturer’s instructions on how to use the student’s device.

Student’s Self-Care CGM Skills	Independent?	
The student troubleshoots alarms and malfunctions.	<input type="checkbox"/> YES	<input type="checkbox"/> NO
The student knows what to do and is able to deal with a HIGH alarm.	<input type="checkbox"/> YES	<input type="checkbox"/> NO
The student knows what to do and is able to deal with a LOW alarm.	<input type="checkbox"/> YES	<input type="checkbox"/> NO
The student can calibrate the CGM.	<input type="checkbox"/> YES	<input type="checkbox"/> NO
The student knows what to do when the CGM indicates a rapid trending rise or fall in the blood glucose level.	<input type="checkbox"/> YES	<input type="checkbox"/> NO

The student should be escorted to the nurse if the CGM alarm goes off: YES NO

Other instructions for the school health team: _____

HYPOGLYCEMIA TREATMENT

Student's usual symptoms of hypoglycemia (list below): _____

If exhibiting symptoms of hypoglycemia, OR if blood glucose level is less than _____ mg/dL, give a quick-acting glucose product equal to _____ grams of carbohydrate.

Recheck blood glucose in 10-15 minutes and repeat treatment if blood glucose level is less than _____ mg/dL.

Additional treatment: _____

If the student is unable to eat or drink, is unconscious or unresponsive, or is having seizure activity or convulsions:

- Position the student on his or her side to prevent choking.
- Give glucagon: 1 mg 1/2 mg Other: _____
 - Route: Subcutaneous (SC) Intramuscular (IM)
 - Site for glucagon injection : Buttocks Arm Thigh Other: _____
- Call 911 (Emergency Medical Services) and the student's parents/guardian.
- Contact student's health care provider.

**INDIVIDUALIZED HEALTH CARE PLAN FOR STUDENTS WITH DIABETES
2022-2023 SCHOOL YEAR**

To be completed by the Physician:

HYPERGLYCEMIA TREATMENT

Student's usual symptoms of hyperglycemia (list below): _____

CHECK:

- Urine Blood for ketones every _____ hours when blood glucose levels are above _____ mg/dL.
- For blood glucose greater than _____ mg/dL AND at least _____ hours since last insulin dose, give correction dose of insulin (see correction dose orders).
- Notify parents/guardians if blood glucose is over _____ mg/dL.
- For insulin pump users: see **Additional information for Students with Insulin Pump**.
- Allow unrestricted access to the bathroom.
- Give extra water and/or non-sugar-containing drinks (not fruit juices): _____ ounces per hour.

Additional treatment for ketones: _____

- Follow physical activity and sports orders. (See **Physical Activity and Sports**)
- If the student has symptoms of a hyperglycemia emergency, Call 911 (Emergency Medical Services) and contact the student's parents/guardians and healthcare provider. Symptoms of hyperglycemia emergency include: dry mouth, extreme thirst, nausea and vomiting, severe abdominal pain, heavy breathing or shortness of breath, chest pain, increasing sleepiness or lethargy, or depressed level of consciousness.

INSULIN THERAPY

Insulin delivery device: Syringe Insulin pen Insulin pump

Type of insulin therapy at school: Adjustable (basal-bolus) Insulin Fixed Insulin Therapy No insulin

ADJUSTABLE (Basal-bolus) INSULIN THERAPY

• **Carbohydrate Coverage/Correction Dose:** Name of insulin: _____

• **Carbohydrate Coverage:**

Insulin-to-Carbohydrate Ratio: **Breakfast:** 1 unit of insulin per _____ grams of carbohydrate

Lunch: 1 unit of insulin per _____ grams of carbohydrate

Snack: 1 unit of insulin per _____ grams of carbohydrate

Carbohydrate Dose Calculation Example
<u>Total Grams of Carbohydrates to Be Eaten</u> = _____ Units of Insulin
Correction Factor

Correction Dose: Blood glucose correction factor (insulin sensitivity factor) = _____
Target blood glucose = _____ mg/dL

**INDIVIDUALIZED HEALTH CARE PLAN FOR STUDENTS WITH DIABETES
2022-2023 SCHOOL YEAR**

To be completed by the Physician:

INSULIN THERAPY (continued)

Correction Dose Calculation Example
$\frac{\text{Correct Blood Glucose} - \text{Target Blood Glucose}}{\text{Correction Factor}} = \text{Units of Insulin}$

Correction Dose Scale (use instead of calculation above to determine insulin correction dose):

Blood glucose _____ to _____ mg/dL, give _____ units

Blood glucose _____ to _____ mg/dL, give _____ units

Blood glucose _____ to _____ mg/dL, give _____ units

Blood glucose _____ to _____ mg/dL, give _____ units

When to give insulin:

Breakfast

- Carbohydrate coverage only
- Carbohydrate coverage plus correction dose when blood glucose is greater than _____ mg/dL and _____ hours since last insulin dose.
- Other: _____

Lunch

- Carbohydrate coverage only
- Carbohydrate coverage plus correction dose when blood glucose is greater than _____ mg/dL and _____ hours since last insulin dose.
- Other: _____

Snack

- No coverage for snack
- Carbohydrate coverage only
- Carbohydrate coverage plus correction dose when blood glucose is greater than _____ mg/dL and _____ hours since last insulin dose.
- Correction dose only: For blood glucose greater than _____ mg/dL AND at least _____ hours since last insulin dose.
- Other: _____

Fixed Insulin Therapy

Name of insulin: _____

- _____ Units of insulin given pre-breakfast daily
- _____ Units of insulin given pre-lunch daily
- _____ Units of insulin given pre-snack daily
- Other: _____

**INDIVIDUALIZED HEALTH CARE PLAN FOR STUDENTS WITH DIABETES
2022-2023 SCHOOL YEAR**

To be completed by the Physician:

INSULIN THERAPY (continued)

Parental Authorization to Adjust Insulin Dose:

- YES** **NO** Parents/guardians authorization should be obtained before administering a correction dose.
- YES** **NO** Parents/guardian are authorized to increase or decrease correction dose scale within the following range: +/- _____ units of insulin.
- YES** **NO** Parents/guardian are authorized to increase or decrease insulin-to-carbohydrate ratio within the following range: _____ units per prescribed grams of carbohydrate, +/- _____ grams of carbohydrate.
- YES** **NO** Parents/guardian are authorized to increase or decrease fixed insulin dose within the following range: +/- _____ units of insulin.

Student's self-care insulin administration skill

<input type="checkbox"/> Yes <input type="checkbox"/> No	Independently calculates and gives own injections
<input type="checkbox"/> Yes <input type="checkbox"/> No	May calculate/give own injections with supervision
<input type="checkbox"/> Yes <input type="checkbox"/> No	Requires school nurse or trained diabetes personnel to calculate dose and student can give own injection with supervision
<input type="checkbox"/> Yes <input type="checkbox"/> No	Requires school nurse or trained diabetes personnel to calculate dose and give the injection.

ADDITIONAL INFORMATION FOR STUDENT WITH INSULIN PUMP

Brand/Model of pump: _____ Type of insulin in pump: _____

Basal rates during school: Time: _____ Basal rate: _____ Time: _____ Basal rate: _____
 Time: _____ Basal rate: _____ Time: _____ Basal rate: _____
 Time: _____ Basal rate: _____

Other pump instructions: _____

Type of infusion set: _____

Appropriate infusion site(s): _____

- For blood glucose greater than _____ mg/dL that has not decreased within _____ hours after correction, consider pump failure or infusion site failure. Notify parents/guardians.
- For infusion site failure: Insert new infusion set and/or replace reservoir, or give insulin by syringe or pen.
- For suspected pump failure: Suspend or remove pump and give insulin by syringe or pen.

**INDIVIDUALIZED HEALTH CARE PLAN FOR STUDENTS WITH DIABETES
2022-2023 SCHOOL YEAR**

To be completed by the Physician:

Physical Activity

May disconnect from pump for sports activities: Yes, for _____ hours No
 Set a temporary basal rate Yes, _____% temporary basal for _____ hours No
 Suspend pump use: Yes, for _____ hours No

Student's Self-Care Pump Skills	Independent?	
Counts carbohydrates	<input type="checkbox"/> YES	<input type="checkbox"/> NO
Calculates correct amount of insulin for carbohydrates consumed	<input type="checkbox"/> YES	<input type="checkbox"/> NO
Administers correction bolus	<input type="checkbox"/> YES	<input type="checkbox"/> NO
Calculates and sets basal profiles	<input type="checkbox"/> YES	<input type="checkbox"/> NO
Calculates and sets temporary basal rate	<input type="checkbox"/> YES	<input type="checkbox"/> NO
Changes batteries	<input type="checkbox"/> YES	<input type="checkbox"/> NO
Disconnects pump	<input type="checkbox"/> YES	<input type="checkbox"/> NO
Reconnects pump to infusion set	<input type="checkbox"/> YES	<input type="checkbox"/> NO
Prepares reservoir, pod and/or tubing	<input type="checkbox"/> YES	<input type="checkbox"/> NO
Inserts infusion set	<input type="checkbox"/> YES	<input type="checkbox"/> NO
Troubleshoots alarms and malfunctions	<input type="checkbox"/> YES	<input type="checkbox"/> NO

OTHER DIABETES MEDICATIONS

Type of Medication <input type="checkbox"/> Prescription <input type="checkbox"/> Non-Prescription		Name of Medication and Strength	
Date to Begin Medication	Date to End Medication	Time to be Given	Amount to be Given (Dosage)
Form of Medication <input type="checkbox"/> Tablet <input type="checkbox"/> Capsule <input type="checkbox"/> Liquid <input type="checkbox"/> Inhalant <input type="checkbox"/> Injection <input type="checkbox"/> Other _____			Route (ex: oral, nasal)

Type of Medication <input type="checkbox"/> Prescription <input type="checkbox"/> Non-Prescription		Name of Medication and Strength	
Date to Begin Medication	Date to End Medication	Time to be Given	Amount to be Given (Dosage)
Form of Medication <input type="checkbox"/> Tablet <input type="checkbox"/> Capsule <input type="checkbox"/> Liquid <input type="checkbox"/> Inhalant <input type="checkbox"/> Injection <input type="checkbox"/> Other _____			Route (ex: oral, nasal)

**INDIVIDUALIZED HEALTH CARE PLAN FOR STUDENTS WITH DIABETES
2022-2023 SCHOOL YEAR**

To be completed by the Physician:

MEAL PLAN

Meal/Snack	Time	Carbohydrate Content (grams)
Breakfast		_____ to _____
Mid-morning snack		_____ to _____
Lunch		_____ to _____
Mid-afternoon snack		_____ to _____

Other times to give snacks and content/amount: _____

Instructions for when food is provided to the class (e.g., as part of a class party or food sampling event): _____

Special event/party food permitted: Parents/guardian discretion Student discretion

Student's Self-Care Nutritional Skills		
Independently counts carbohydrates	<input type="checkbox"/> YES	<input type="checkbox"/> NO
May count carbohydrates with supervision	<input type="checkbox"/> YES	<input type="checkbox"/> NO
Requires school nurse/trained diabetes personnel to count carbohydrates	<input type="checkbox"/> YES	<input type="checkbox"/> NO

PHYSICAL ACTIVITY AND SPORTS

A quick-acting source of glucose below must be available at site for physical education activities and sports.

Source of glucose:	<input type="checkbox"/> Glucose tabs and/or <input type="checkbox"/> Sugar-containing juice
Student should eat:	<input type="checkbox"/> 15 grams <input type="checkbox"/> 30 grams of carbohydrate <input type="checkbox"/> other: _____
Times to consume:	<input type="checkbox"/> Before activity <input type="checkbox"/> Every 30min during activity <input type="checkbox"/> Every 60 min during activity <input type="checkbox"/> After physical activity <input type="checkbox"/> Other: _____

If most recent blood glucose is less than _____ mg/dL, student can participate in physical activity when blood glucose is corrected and above _____ mg/dL.

Avoid physical activity when blood glucose is greater than _____ mg/dL or if urine/blood ketones are moderate to large.

(Additional information for student on insulin pump is in the insulin section.)

**INDIVIDUALIZED HEALTH CARE PLAN FOR STUDENTS WITH DIABETES
2022-2023 SCHOOL YEAR**

To be completed by the Physician and Parent/Guardian:

Page 9

DISASTER PLAN

To prepare for an unplanned disaster or emergency (72 hours), obtain emergency supply kit from parents/guardians.

- Continue to follow orders contained in this DMMP.
- Additional insulin orders as follow (e.g., dinner and nighttime): _____

- Other: _____

SIGNATURES

This Diabetes Medical Management Plan has been approved by:

Student's Physician/Health Care Provider Date

Acknowledged and received by:

Student's Parent/Guardian Date

**SELF-CARRY AND SELF-ADMINISTER DIABETES MEDICATION AGREEMENT
2022-2023 SCHOOL YEAR**

To be completed by the Parent and Student:

Student name: _____ Date of Birth: _____

Where will student carry diabetes medication (**required**): _____

Additional diabetes medication will be provided to the school and stored with prescribed medication at specified school location: (**required**): _____

STUDENT

- I will notify school personnel if I am having more difficulty than usual with my diabetes.
- I agree to carry my diabetes medication/supplies with me as listed above. If an emergency arises and I am unable to get to the nurse/school personnel, I will use the diabetes medication as prescribed by the physician and then **immediately** inform a nurse/school personnel.
- I agree to use my diabetes medication/supplies in a responsible manner, in accordance with the physician's orders. I understand my diabetes signs, symptoms, and treatment plan reviewed by my physician and parent(s)/guardian(s) and understand to use my diabetes medication/supplies as prescribed by my physician.
- I agree to never share my diabetes medication/supplies with another person as this is dangerous. If I do this may result in disciplinary action.

Student Signature: _____ **Date:** _____

PARENT/GUARDIAN

- I agree to see that my child carries his/her diabetes medication/supplies as prescribed, and that it is properly labeled and is not expired.
- I understand that I will provide the school with an additional diabetes medication/supplies to store at school along with any prescribed medication(s) from the physician treatment plan.
- I have reviewed with my child his/her diabetes signs, symptoms and treatment plan including the usage of the self-carry diabetes medication/supplies.
- I agree to regularly review with my child the proper use of his/her diabetes medication/supplies when at school.
- I agree to regularly review the status of my child's diabetes with the physician and to notify the physician when my child is having more difficulty than usual.
- I understand if my child shares medication/supplies with other students it may result in disciplinary actions.
- My child has demonstrated to his/her physician and the school, nurse, if available, the skill level necessary to self-administer the prescription medication, including the use of any device required to administer the medication in case an emergency arises and they are unable to get to a school personnel/nurse.
- The self-administration is done in compliance with the prescription or written authorization for my child to self-administer the medicine while on school property or at a school-related event or activity.
- I understand that such self-administration must be done in compliance with the prescription or written instructions of my child's physician. Additionally, I have provided a written and signed statement from my child's physician that states:
 1. The student has a diabetes and is capable of self-administering the prescription medicine;
 2. The name and purpose of the medicine; the prescribed dosage of the medicine; the times or circumstances which the medicine may be administered; and the duration for which the medicine is prescribed.
- This is in effect for the current school year only unless revoked by the physician or the student, parent(s)/guardian(s) fails to meet all the above safety contingencies.

Parent Signature: _____ **Date:** _____
